

Board of Trustees Update

February 2023

NOTES ON METHODOLOGY

The following slides provide an overview of progress made to date under each of the strategic plan priority areas.

Metrics which are easily quantified (fundraising, enrollment, etc.) are represented with % to goal meters, while qualitative metrics are represented as stoplights (red, yellow, green).

Individual metrics have been weighted by priority sponsors and are presented here in order of importance for achieving overall success in each priority area.

Overall progress on each priority is captured by either a stoplight or % to goal progress bar at the top of each section, or both.

A red stoplight indicates that the metric is in a planning stage. It is not yet being tracked or it is behind schedule for on-time completion.

A yellow stoplight value indicates that, taken together, the metrics under this priority are on track for completion by five years.

A green stoplight value indicates that, overall, metrics under this priority are progressing toward the goal more quickly than the original five-year plan.
